

STATE OF MINNESOTA
OFFICE OF ADMINISTRATIVE HEARINGS
FOR THE POLLUTION CONTROL AGENCY

In the Matter of the Request for Review
and Approval of Additional Notice Plan of
the Pollution Control Agency for Rule
Amendments Governing Water Quality
Standards - River Eutrophication, Total
Suspended Solids and Minor Corrections
and Clarifications to Minnesota Rules 7050
and 7053

**ORDER ON REVIEW OF
ADDITIONAL NOTICE PLAN**

This matter came before Administrative Law Judge James E. LaFave upon the Minnesota Pollution Control Agency's (MPCA) request for review of its Additional Notice Plan. The Pollution Control Agency seeks a legal review of its materials under Minn. R. 1400.2060.

Based upon a review of the written submissions by the Pollution Control Agency, including its plan to notify the following persons, governmental agencies or other interested parties:

- Over 1,500 persons in a Govdelivery mailing list compiled through a series of notices and invitation whom the MPCA believes is an accurate and comprehensive list of people interested in these amendments; and
- The city administrators of 854 Minnesota cities.

And based upon the fact the Notice will be posted:

- On the MPCA's Public Notice web site at <http://pca.state.mn.us/index.php/public-notices/list.html>. This Notice will be posted for the entire term of the public comment period and will also provide links to the Statement of Need and Reasonableness (SONAR) and proposed rule language; and
- On the MPCA's webpage specifically focused on the proposed rule amendments <http://www.pca.state.mn.us/iryp1405>. This webpage will also include links to the SONAR proposed rule language and the

technical support documents used in development of the proposed amendments.

IT IS HEREBY ORDERED THAT:

The Additional Notice Plan is **APPROVED**.

Dated: July 15, 2013

s/James E. LaFave
